CustomerCall[®]

EuroCoasters

Benefit immediately from:

Build sales and increase customer loyalty – simply

Effective queue management can help you instantly increase sales and create customer loyalty. A CustomerCall EuroCoaster paging system is a simple and easy way to achieve this. Your customers' dining experience is improved, tables are turned more quickly and sales are increased. With less congested floors and no visible queues, customers will happily wait.

Customers given a pager may wait or go elsewhere, it's entirely their choice. Staff members simply press a button on the desktop keypad to send a message to the pagers, when it's time for customers to return.

Rugged and waterproof, EuroCoaster pagers will save you from extra repair and replacement costs.

- > **Increased Profit**
Guests are free to utilise the facilities within your venue, reducing congestion at the counter.
- > **Small Footprint**
Because the pagers stack on to each other, they occupy minimal space. Perfect for areas where space is limited.
- > **Fewer Customer Complaints**
Giving customers the freedom to wait where they wish reduces their impatience and enables them to relax.
- > **Lower Costs**
Excessive wage and labour costs are eliminated, as current staff can serve more customers effectively.
- > **Reduce Noise Pollution**
No need for constant PA announcements or calling-out, as the pager will alert guests with a vibration, flash or beep.
- > **No Waiting Around**
No need to wait for assistance, for orders, or to be seated. Your guests can relax knowing that their place is 'safe in the queue'.
- > **Return on Investment**
By reducing costs and increasing customer satisfaction and sales, the system can be paid for within the first month of operation.

Additional pager options available:

Paddle pager

Numeric pager vibrates and flashes when paged. Available with customised branded paddle.

CST Alphanumeric pager

Numeric 1 line or 12 character text message pager. Also available with a paddle.

IQ pager

Customer pager that flashes, beeps and vibrates when paged. Includes space for advertising insert.
